Summary

Software development student looking to improve the experiences of users all across the globe through UI and UX design or frontend development. I am looking for a job that will allow me to bring logical thinking and structure together with beautiful designs in order to give users a great experience when navigating software.

Skills

Design Tools (Figma, Adobe Products)

Frontend (React, Angular, and Vue)

Backend (Java and C#)

Agile Development

Education

Grand Canyon University

Phoenix, AZ

September 2021 - Present

Bachelor of Science in Software

Development — in Progress

Minor in Web Design

Hill College

Hillsboro, TX

August 2020 - May 2021

Associate of Arts in Computer Science

Experience

Kinective (CFM)

Tempe, AZ

October 2022 — Present

Development Intern:

Started by using Java to develop software that communicates with bank machines.

Worked with a team of 3 designers and developers to build a design system using Figma that shortened front end development times by over 50%.
